payKiosk: All-in-One Self-Service Point of Sale

payKiosk is a compact, visually appealing self-checkout kiosk that integrates self-ordering functionalities with pagAmico automated payment technology.

The user journey is streamlined and efficient: from product selection on screen to secure payment via cash, credit/debit card, or dedicated mobile app.

payKiosk is designed to support integration with a thermal fiscal printer for issuing official receipts, and an optional internal printer for printing non-fiscal courtesy receipts, discount vouchers, and loyalty coupons.

All-in-one,
fully smart.

FEATURES AND PERFORMANCE

Monitor and Operating System: 21.5" capacitive touchscreen with Android Cortex Quad Core A55 CPU, 16 GB onboard storage and 2 GB RAM, or Windows configuration with Intel i5 CPU, 256 GB SSD and 4 GB RAM. Both systems are equipped with Wi-Fi connectivity.

Automated Cash System Control Display: 7" capacitive LCD touchscreen with Android CPU dedicated to managing pagAmico operations and guiding the end user through the payment process.

Banknote and Coin Handling: payKiosk is compatible with all versions of pagAmico Automated Cash Payment Systems, retaining their full range of unique features including 4G router, accelerometer, and backup batteries.

POS: Accepts credit and debit card payments. Supports all cards, both contactless and chip-insert, with or without PIN, and with no amount limitations. Compatible with a wide range of mobile payment applications.

Cash Loading: Performed externally—no need to open the internal compartments.

Access: Secured with keyed locks and password protection.

Connectivity: ETH, Wi-Fi, static IP with DNS, GPRS/4G router with M2M SIM.

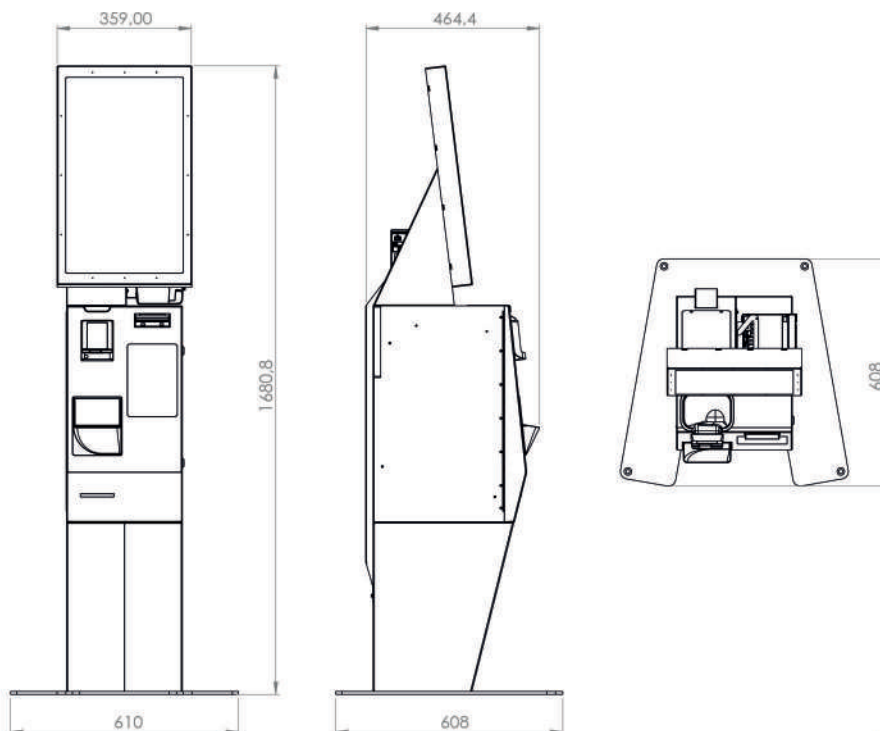

Remote Access – Accounting – Security: Always-on router with SIM card for 24/7 connectivity. Enables real-time data management, software updates, access control, and alarm monitoring. Any anomalies are immediately reported to the Payprint Remote Support Service.

Fiscal Printer: Compatible with leading fiscal printer models. Optional internal printer available for issuing courtesy receipts, discount coupons, and loyalty vouchers.

Certifications: CE mark; HACCP compliant.

Dimensioni e peso:

- Height: 1,680.8 mm
- Base width: 610 mm
- Base depth: 608 mm
- Screen width: 359 mm
- Body depth: 464.6 mm
- Total weight: 106 kg
